COASTAL PELAGIC SPECIES MANAGEMENT TEAM REPORT ON FUTURE COUNCIL MEETING AGENDA AND WORKLOAD PLANNING

The Coastal Pelagic Species Management Team (CPSMT) is currently scheduled to attend the November 2025 Pacific Fishery Management Council (Council) meeting remotely. The CPSMT requests to be in person for this meeting to facilitate discussions under the Sardine Stock Definitions agenda item. Based on the April 2026 Council meeting agenda, the CPSMT asks to be in person for that meeting as well. If travel constraints limit in-person attendance to one of these meetings, the CPSMT would prioritize the April 2026 meeting.

The CPSMT also plans a pre-November Council remote meeting to initiate discussions as soon as possible after meeting materials are available.
