

F.1 Methodology Review – Final Topic Selection

Council Tasks:

1. Based on the statements and information received, determine the readiness of the proposed topics, and any additional topics, if applicable, for the October Salmon Methodology Review meeting.
2. Provide guidance to the SSC regarding topics and priorities for methodologies to be reviewed in 2025.
3. Request relevant agencies develop and provide needed materials to the Council office at least two weeks prior to the review, as appropriate.

ODFW Motion 1:

I move to advance the following methodology review topics for final topic selection:

1. The Oregon Production Index Hatchery (OPIH) forecast methodology, including the index exponential-decay-weighting approach adopted for use in 2025 (ODFW/WDFW) as described in Agenda Item F.1.a., Situation Summary; and,
2. Proposed changes to the Oregon Coast Natural coho marine survival index (ODFW) as described in Agenda Item F.1.a Supplemental ODFW Report 1, ODFW letter to Chair Hassemer.

Moved by John North

Seconded by Christa Svensson

Motion passes unanimously

Corey Ridings Motion 1:

I move that Methodology review topics 1 and 2 in SSC Report 1 are moved forward for review at the October 2025 Salmon Methodology review.

Moved by Corey Ridings

Seconded by Christa Svensson

Motion fails with Corey Ridings, Rebecca Lent voting yes, Sharon Kiefer abstains, all others voting no.
