NOAA FISHERIES

FISHERMEN & SCIENTISTS ROUNDTABLE

at the Pacific Fishery Management Council's upcoming November meeting in Garden Grove, CA

NOAA's Northwest and Southwest Fisheries Science Centers are preparing their annual Ecosystem Status Report for the Pacific Fishery Management Council, regional partners, and coastal communities. These reports are designed to give managers a more complete picture of conditions in the California Current marine ecosystem.

The Science Centers are looking for input from commercial and recreational fishermen and tribal partners, with a focus on unusual or unexpected conditions observed during the 2026 fishing season. Two separate roundtables will be held in conjunction with the Council's November meeting; they will each follow the same format and are being scheduled in order to allow as many people to attend as possible. Our solicitation for fisherman observations is a direct response to the PFMC request regarding Special Project 1 (see Council decision summary).

ROUNDTABLE 1

Thurs, Nov 12 | 3 - 5 pm

Meeting Room - Royal A

Hyatt Regency Orange County

11999 Harbor Blvd.
Garden Grove, CA

ROUNDTABLE 2

Sat, Nov 14 | 3 - 5 pm

Meeting Room - Madrid

Hyatt Regency Orange County

11999 Harbor Blvd.
Garden Grove, CA

All are welcome to attend either roundtable.
