

GROUND FISH ADVISORY SUBPANEL REPORT ON OFF-YEAR SCIENCE AND STOCK
ASSESSMENT METHODOLOGY REVIEW – FINAL TOPIC SELECTION

The Groundfish Advisory Subpanel (GAP) met with Mr. John DeVore to receive an overview of the off-year science and stock assessment methodology review agenda item, and we offer the following comments and recommendations.

The GAP supports the list of preliminary workshops and formal reviews of new proposed methodologies to improve the science informing groundfish management decisions, as described in the [Situation Summary for F.10](#). We request GAP representation at these workshops and reviews where appropriate.
