The purpose of this webinar is for the EWG to consult with members of the Council's Salmon Technical Team on (1) how policies in the Pacific Coast Salmon Fishery Management Plan can address climate change impacts and (2) potential revisions to the Fishery Ecosystem Plan, especially in relation to the Climate and Communities Initiative.

A. Webinar Logistics

B. Introduction and Approval of the Agenda

C. Climate and Communities Initiative

- a. How can policies in the Pacific Coast Salmon Fishery Management Plan address climate change impacts?
- b. What tools or management measures would be most useful for climate adaptation in the Salmon FMP context? (Could broaden discussion to measures not currently available in the FMP or relevant statutes.)
- c. Short review of scenario planning
- a. What are the most important climate drivers affecting west coast salmon populations?
- b. If a climate scenario focuses on just one salmon species/stock, which one should it be?

B. Update of Fishery Ecosystem Plan

- a. Fishery Ecosystem Plan goals and objectives
 - i. Review current objectives
 - ii. Should ecosystem state/status objectives be added?
- b. Fishery Ecosystem Plan structure and content
 - i. Updates?
 - ii. Deletions?
 - iii. Content reorganization?
- c. July 2018 framing questions (see [G.2.a EWG Report 1, September 2018](#))
