

PROPOSED AGENDA
**Highly Migratory Species Management Team
Webinar**

Friday, February 22, 2019, 1:30-4:30 p.m.

<http://www.gotomeeting.com/webinar/join-webinar>

Webinar ID: 544-381-883

Telephone: +1 (562) 247-8321

Audio Access Code: 835-605-745

Participants must use a telephone or cell phone to participate in the audio portion. After logging into the webinar the GoToMeeting interface will provide you with an audio PIN which must be entered on the telephone at the prompt to activate voice communication. Agenda times are approximate and are subject to change.

A. *Call to Order* **(1:30-1:45 p.m.)**

1. Webinar Logistics
2. Introductions
3. Approval of Webinar Agenda

B. *Fishery Ecosystem Plan* **(1:45-2:45 p.m.)**

1. Climate and Communities Initiative trigger questions:
 - How can existing policies in the HMS FMP address climate change impacts?
 - What FMP tools or management measures would be most useful for adapting to climate induced changes in HMS fisheries? (Could broaden discussion to measures not currently available in the FMP or relevant statutes.)
 - What are the most important climate drivers affecting West Coast HMS populations?
 - If a climate scenario focuses on just one HMS species/stock, which one should it be?
2. Other ecosystem topics (time permitting)
3. Public comment

C. *Drift Gillnet Performance Metrics Review* **(2:45-3:45 p.m.)**

1. Review council assignment (Motion under Agenda Item H.5, September 2018)
2. Review tasks completed to date
3. Determine tasks to address in March and plan for reporting in June
4. Public comment

D. *Other Matters on the March Council Meeting Agenda* **(3:45-4:30 p.m.)**

1. International management
2. Future agenda and workload planning (specifically, future deep-set buoy gear exempted fishing permits)
3. Other Matters
4. Public Comment
