

**Agenda Item G.4 Amendment 26: Blackgill  
Rockfish Management Final Action  
Council Action:**

- 1. Consider Reaffirming the Council's November 2015 Decision on Amendment 26 Blackgill Rockfish and Southern Slope Rockfish Reallocations.**
- 2. Consider Revising Accumulation Limits for Blackgill Rockfish in the Trawl Individual Fishery Quota Sector.**

**I move the Council rescind its final action taken on Amendment 26 in November 2015.**

**Moved by: Marci Yaremko**

**2<sup>nd</sup> by: Bob Dooley**

**Motion carried unan.**

**I move that the Council:**

- 1. Take no action on Amendment 26 to remove blackgill rockfish from the slope rockfish complex south of 40° 10' N. lat, nor take action to reallocate blackgill rockfish and the remaining species in the Southern Slope Rockfish Complex between trawl and non-trawl sectors.**
- 2. Maintain existing accumulation limits for the slope rockfish complex south of 40° 10' N. lat.**
- 3. To provide relief to the non-trawl sector as soon as possible, direct the GMT to evaluate Limited Entry Fixed Gear and Open Access inseason trip limit increases, for use in 2019 and 2020, under Agenda Item G.9.**
- 4. Recognizing the interest in reallocating some portion of the slope rockfish complex south of 40° 10' N. lat., and the analytical work done in support of this regulatory action that will not proceed, in the 2021-22 biennial specifications process, direct the GMT to analyze removing the slope rockfish complex south of 40° 10' N. lat. from the list of species and species groups for which the Amendment 21 allocations apply (Trawl v Non-Trawl), and allow the allocations of this complex to be established biennially.**
- 5. Direct the GMT to evaluate the need to maintain the blackgill harvest guideline within the southern slope complex into the next biennium, and report back to the Council during the 2021-22 Biennial Specifications process.**

**Moved by Marci Yaremko; 2<sup>nd</sup> by Marc Gorelnik  
Motion carried unan.**
