Additional information you think would be helpful in reviewing the application concerning where you plan to fish and the amount of fishing:

I INTEND TO FISH DSBG IN THE PACIFIC NORTHWEST, WHILE I FISH ALBACORE. I HAVE BEEN FISHING ALBACORE IN THESE WATERS 30 YEARS AND HAVE SEEN TREMENDOUS AMOUNTS OF SWORDFISH. I WOULD LIKE THE OPPORTUNITY TO ASSESS THE SWORDFISH PRODUCTION FROM THESE WATERS.

9) **Data Gaps:** Will your EFP fishing specifically address any of the following data gaps? (See Attachment B for descriptions)

- Active gear tending
- Gear conflicts/number of vessels
- Gear configuration
- Concurrent gear use

Explain what methods you would use, or information you plan to gather, to address the data gaps you checked off above:

I PLAN ON JIGGING ALBACORE WHILE ACTUALLY TENDING THE DSBG. I WILL BE IN THE MIDDLE OF THE ALBACORE GROUNDS WITH MANY OTHER BOATS FISHING AROUND ME.

10) Reporting Requirements and Observer Coverage:

- You must maintain a logbook for reporting catch and other operational information (such as time and location of catch) in a format specified by National Marine Fisheries Service
- Up to 100% observer coverage may be required on your EFP fishing trips
- Data gathered as part of the EFP will be publicly available

I acknowledge the above conditions, and verify that I am willing and able to cover the cost of any level of observer coverage required under permit terms and conditions.

If you are unable to cover the entire cost of the observer coverage requirement, please explain what portion you may be able to cover and identify other sources of funding which may be available to help you cover observer costs.
