Additional information you think would be helpful in reviewing the application concerning where you plan to fish and the amount of fishing:

I have been a full time boat operator for the past 40+ years, some commercial but mostly sportfishing. I am a good steward of the ocean, and this is my project to fish with my autistic son in retirement. I am good friends with some of the fishermen already in the program and have a good understanding of what it is all about.

Data Gaps: Will your EFP fishing specifically address any of the following data gaps? (See [Attachment B](#) for descriptions)

Reporting Requirements and Observer Coverage:

- You must maintain a logbook for reporting catch and other operational information (such as time and location of catch) in a format specified by National Marine Fisheries Service
- Up to 100% observer coverage may be required on your EFP fishing trips
- Data gathered as part of the EFP will be publicly available

I acknowledge the above conditions, and verify that I am willing and able to cover the cost of any level of observer coverage required under permit terms and conditions.

Yes

If you are unable to cover the entire cost of the observer coverage requirement, please explain what portion you may be able to cover and identify other sources of funding which may be available to help you cover observer costs:

I can pay for food ext, but if I had to cover observer pay I could not afford to fish
