DRAFT-NOT FOR ADMINISTRATION

I move that the Council direct the CPSMT to prepare draft revisions to the CPS FMP in a manner that retains the management approaches for the CPS management unit stocks and describes how each stock is managed in a stock-specific manner, rather than through use of a categorical assignment. Specifically, the intent is to remove references to the named management categories, but not to revise the manner in which the CPS stocks are managed. Should the Council wish to consider whether and how to change the way specific CPS stocks are managed, then that could be a separate item for future consideration.
