H.10 motion – I move the Council adopt the following topics for groundfish methodology review in 2020:

- Combined visual-hydroacoustic survey of Oregon’s nearshore semi-pelagic black, blue and deacon rockfish as proposed in Agenda Item H.10, Attachment 1
- Data-moderate approaches that are highly reliant on length data as proposed in Agenda Item H.10, Attachment 2
- A meta-analysis of productivity estimates for elasmobranchs

Moved by Maggie Sommer
2\textsuperscript{nd} by Louis Zimm

Motion passes unanimously.
