

2011 PACIFIC HALIBUT REGULATIONS

Under its standard process, the Council solicits proposed changes to the Area 2A Pacific Halibut Catch Sharing Plan (CSP) (Agenda Item G.1.a, Attachment 1) at its September meeting and adopts any changes in November after reviewing public and agency comments. Generally, changes are limited to adjustments in the annual regulations and minor modifications to the CSP. The National Marine Fisheries Service (NMFS) has prepared an inseason update on 2010 halibut catch in Area 2A with the assistance of state and tribal managers to provide perspective on the performance of the current CSP (Agenda Item G.1.b, NMFS Report).

For the 2011 season, the Council is considering changes to the management of recreational fisheries in Oregon, and some minor regulatory language for the non-Indian directed commercial fishery. The proposed changes resulted from recommendations provided by the Oregon Department of Fish and Wildlife (ODFW) after holding public meetings, from NMFS, and from Council discussion and public testimony received at the September 2010 Council meeting.

The Council solicited public input on the changes on its website and in the Council Newsletter article from October 2010 (Agenda Item G.1.a, Attachment 2). ODFW also solicited public input, including a public hearing on October 6, and subsequently prepared agency recommendations for regulatory changes in 2011 (Agenda Item G.1.b, ODFW Report).

Based on the input received since the September 2010 Council meeting, the states, NMFS, and tribes will present their final proposals for regulatory changes in the halibut fishery at this meeting.

Council Action:

- 1. Within the scope of the September 2010 proposals (G.1.a, Attachment 2) and public input, adopt Council recommendations for implementing proposed changes to the Area 2A Pacific Halibut Catch Sharing Plan and annual regulations for 2011.**
