March 3, 2012

The primary purpose of this meeting of the Scientific and Statistical Committee (SSC) Economic Subcommittee (Subcommittee) is to review groundfish impact estimation models for recreational fisheries off the coast of Oregon. This review is part of series of reviews planned for 2012 in preparation for the 2015-2016 biennial groundfish management cycle. The results of this review are not considered final until reviewed by the full SSC and are not anticipated to be implemented during the ongoing 2013-2014 biennial management cycle.

Subcommittee meetings are open to the public and public comments will be accepted at the discretion of the Subcommittee Chair. A suggestion for the amount of time each agenda item should take is provided. At the time the agenda is approved, priorities can be set and these times revised.
